Pazo de Senorans - Salnes

Pazo de Señorans is one of the leading winegrowers in the Rias Baixas appellation, and is renowned throughout the world for their outstanding quality, intense aromatic character and unique freshness. Located near the village of Vilanoviña, Salnes, the lowland vineyards, with their fine, sandy, acidic soils, are less than 10 km from the sea where they enjoy gentle temperatures and elevated precipitation that levels off during the summer months. The original winemaking cellar is a magnificent example of the ancestral homes of rural 19th century Galicia, a manor house built in the countryside with all the charm and nobility of a bygone era.

D.O. Rias Baixas - Galicia

Over 99% of all wine produced in Rias Baixas is white. Differences in microclimates, terroir and grape varieties in the five sub-zones, as well as different winemaking techniques, make for wonderful diversity. Styles range from a crisp, aromatic “melon” character in Val do Salnés, to a peachier, softer style in O Rosal, and a less fruity and earthier style in Condado do Tea.

Coto de Gomariz/Ailalà - D.O. Ribeiro (Galicia)

Ribeiro DO er en vin region i Galicia i nord-Spania, og er lokalisert mellom de berømte Rias Baixas i vest og Ribeira Sacra i øst. DO tittelen ble offisielt etablert i 1957. Siden tidlige tider har vin vært regionens primære kilde til inntekt og sysselsetting. Fire elver - Barbatino, Avia, Arnoia og Miño – går sammen her.

Innflytelse av Atlanterhavs klima er tydelig i Ribeiro, med relativt mye nedbør og fuktighet, men beliggenheten i innlandet gir en beskyttelse fra hovedtyngden av de atlantiske stormer. Det er også varmere enn hos den vestlige nabo og får også halvparten av den gjennomsnittlig årlig nedbør. Gjennomsnittlig årlig solskinn på mer enn 1900 timer . Syrenivået i hvite viner fra Ribeiro er naturlig høyt.

De viktigste druetyper i de hvite vinene er Treixadura, Torrontes, Godello, Loureiro og Albariño. Hvite viner står for rundt 85 prosent av alle vinene som produseres i DO som passer meget bra til bl.a. sjømat. Coto de Gomariz produserer en del viner av druer fra sin «hovedbodega», men produserer også fra andre egne vinmarker i Ribeiro.

D.O. Rias Baixas (Galicia)

Adega Corisca: liten produsent i Condado de Tea som lager ca 10.000 flasker i året. En av de få i DO Rias Baixas som er økologisk sertifisert.

Casa do Sol: en liten produsent i Ulla, som er et distrikt innen DO Rias Baixas som ligger nord-vest for Salnes. 80% av vinmarkene deres er i Ulla og 20% i Salnes. Ulla ligger noe lenger inn landet, og har et noe kjøligere klima enn kystområdene. Dette øker modningstiden, som igjen øker kompleksiteten i vinene.

Atlantis: kommer fra vinmark som ligger nært elvebredden til elven Mino ved grensen til Portugal, i distriktet Condado de Tea.

Adega Algueira

The Algueira winery is located in the midst of old chestnut and oak tree forests, on the banks of the river Sil, where the monks built their monasteries back in the 12th Century, A scenario which reflects the calm and peacefulness necessary for the creation of our wines.

The building is integrated into the surrounding nature, and it resembles a monastic Romanesque building. The winery relies on leading technologies for the elaboration and bottling of wine.

We bet on autonomous varieties, and we base our production entirely on grapes from our own vineyards which are located on the banks of the River Sil, which benefit from the exceptional micro-climate conditions for the production of first grade quality grapes. Our first aim is to highlight quality over quantity, thereby creating a genuine wine which is sure to please the palates of wine lovers.

Red Mencía, Alvarello, Merenzao, and Caíño grapes, and whites from Godello, Loureiro, Alvarinho and Treixadura are the musical chords we use to compose our masterpieces.

The orientation of our vines, the microclimate, growing them on slopes looking towards the river, as well as the special care we take with our vineyards in search of low stock yield are the biggest secrets to our success.

Mengoba – Gregory Perez

D.O. Bierzo

I det vestlige hjørnet av Castilla y León, helt inntil Galicia, ligger Bierzo. Kulturelt og historisk er Bierzo sterkere tilknyttet Galicia enn Castila y León. Naturen er frodig og grønn takket være den gode blandingen av et varmt kontinentalt klima og det kjølige og fuktige atlantehavsklimaet. Med dette klimaet og et skrint jernholdig jordsmonn er Bierzo et ideelt område for druedyrking. Vinstokkene er plantet i skråninger eller terrasser på 450 – 1000 meters høyde.

Området er kjent for sine flotte rødviner laget på Mencia druen. Druen har mange av de samme kvalitetene som Cabernet Franc, og gir friske rødviner med fasthet, dybde og aromaer av mørke og røde bær, fioler og urter. De hvite vinene lages på de lokale druene Godello og Doña Blanca.

De siste 10 årene har det skjedd en rask kvalitetsutvikling her. Få andre vinregioner har så høy gjennomsnittskvalitet som Bierzo. (Kilde: Vinmonopolet).

Familiarity with the composition of the soil and treat it as a living system. Plow, dig, pile and aerate the soil. Controlled use of organic fertilizers.

Noen spanjoler

Spania har en matkultur som i stor grad er opp mot vår egen med mye bruk av sjømat. Eksempel på dette er Galicia i nord Spania hvor det dyrkes druetyper som passer meget bra til det norske kjøkkenet. Vi har plukket ut en del spanske viner som har et bra pris/kvalitetsforhold. Mange av disse er en-drue viner som på en utmerket måte får frem det karakteristiske ved druen og området vinen kommer fra. Noen av dem finner du her.

La Zorra - D.O.P Salamanca

LA ZORRA – A small and unique winery in the up and coming region of Salamanca. Beautiful vineyards in small plots mixed in with wild vegetation on the slopes of the mountains. Rufete is the local grape, unique to the region and makes a perfect pair with Aragones (Tempranillo). La Zorra is one of the leading producer in the region. Located in a natural reservation. Produced organic.

Leyenda de Paramo - Leon

LEYENDA DE PARAMO
A superb relatively new winery in a up and coming wine región, LEON. Pioneers of the region. They work with Prieto Picudo and Albarin -grapes that is unique to their region. They have organic wines from their local grapes and more interestingly, the Prieto Picudo grapes which grow along the ground. They have 60 to over 80 year old vines.

Bodegas Carmelo Rodero

D.O Ribera del Duero

Carmelo Rodero has his roots firmly fixed in Pedrosa de Duero's wine-making traditions. The fourth generation to become involved, he follows in the footsteps of his great-grandparents, who used traditional wine-presses, and his grandparents, founder members of Pedrosa's wine-producing cooperative.

After running the family vineyards for several years, he ventured out and sold grapes from 50 ha of vineyards to Vega Sicilia for 14 years. Having gained a real understanding of the importance of superior quality grapes in wine-making, he started up on his own in 1990. The company proudly points out that since the first vintage of 1991 appeared the next year, their wines have consistently won national and international awards, placing them among the Ribera's most prestigious.

The estate now covers 103 ha, with vineyards of bush and trellised vines averaging 30 years old, located near Roa, by the River Duero. A complete range of wines is offered, as the older vineyards, with some 70 year-old vines, produce the Crianzas, Reservas and Gran Reservas, while the Tinto Joven and Roble (oaked for a short while) are served by the younger vineyards. The indigenous varietal Tinta del País (Tempranillo) accounts for 85% of plantings, along with 10% Cabernet Sauvignon and 5% Merlot; density is generally around 2,500 vines per hectare. Not afraid to move with the times, Carmelo Rodero has modernized and modified the Pedrosa de Duero winery to incorporate new ideas into this family business. A revolving platform enables the vats to move round to receive the grapes, and pumping over is avoided by using a small mechanised tank. A traditional approach goes hand in hand with applying innovation, to extract the best from the grapes and maintain their quality in the production of very fine wines.

Bodegas José Pariente

Følgende skrev Aperitif i sitt magasin i artikkel om Rueda , det ”Det spanske hvitvinsparadiset”, om José Pariente: ”José Pariente er produsenten som imponerer aller mest med sine nydelige vellagete hvitviner av utsøkt klasse. José Pariente var en entusiastisk vinmaker i Rueda med lidenskap for kvalitetsvin som han kunne servere i sin restaurant. Hans datter Victoria har ført driften videre og bygget nye moderne produksjonslokaler i 2008. Nå er også tredje generasjon med Martina og Ignacio aktive i familiefirmaet. Her produseres det fem hvitviner, hvorav tre med er med verdejo og de andre med sauvignon blanc. Deres siste verdejo-vin er produsert i sementegg-tanker og er lansert på markedet for noen få år siden.

I tillegg produserer nå Pariente noen røde viner fra Castilla y León området. En av disse er Confines, som er en meget liten produksjon laget på druer fra 100 år gamle vinstokker som ligger over 1.000 moh i Sierra de Gredos.

Matsu - D.O. Toro

Dropp amarone – gå heller for disse

Fra Spania kommer tre viner som konkurrerer ut så å si all amarone. Og det til helt andre priser.

Kolleksjonen av Matsu viner er en hyllest til de tre generasjonene som har arbeidet på vinmarkene gjennom mange år.

Vinene er laget av Tinta del Toro. Dette er Tempranillo druen som kalles Tinta del Toro fordi den tar tykkere skall enn det Tempranillo druen har normalt. Det er dette som bl.a. gir vinen en fyldig og kraftig smak.

Druene dyrkes uten noen form for kjemisk behandling. Spontanfermentert og tappes ufiltrert.

I 2021 introduserer Matsu sin første hvitvin – La Jefa 2018.

Jiménez-Landi

D.O.P. Méntrida

A family winery pioneering Garnacha-driven reds in DO Méntrida (Central Spain), Jiménez-Landi tend 20Ha of their own plus 5Ha of rented vineyards. Vines are located on the pasture, scrubland landscape of Méntrida, the village in the lower part of the region, and the rugged hills of El Real de San Vicente, the only village in the appellation within the boundaries of the Gredos mountains. Vines are planted at 550-650m on the plain and at 750-850m on the mountains. Sandy granitic soils are dominant in both areas.

Gorka Izaguirre - D.O. Txakoli de Bizkaia

Bat Gara - D.O. Arabako Txakolina

Very few wine producers around the world can boast about having a both 1 and 3 Michelin-starred restaurant as neighbor but this is the case at Gorka Izaguirre, in the village of Larrabetzu (Basque Country), just 20 kilometers from Bilbao. Producer Gorka Izaguirre along with his nephew chef Eneko Atxa, run a family business which includes ample Txakoli winemaking facilities, a state-of-the-art restaurant (Azurmendi, 3 Michelin stars) and an informal bistro (Eneko, 1 star Michelin). Total production stands at around 270,000 bottles. All vineyards are their own or have been rented in order to have full control over them. Altogether they farm 40 hectares located in different villages like Larrabetzu, Euba, Amorebieta-Etxano, Mungia (the closest to the sea) or Dima. Two white varieties are grown: Hondarrabi Zuri (the Basque name for Courbu Blanc) and Hondarrabi Zerratia (Petit Courbu) which is also locally known as Small-Leaf Hondarrabi. Winemaker José Ramón Calvo favors a south-east exposure to take full advantage of the first sun rays, which dry out the skins of the grapes and keep humidity away. In his opinion, a good exposure is far more important than being close to the sea. Atlantic climate and rain go hand in hand. With 1,000-1,300mm annual rainfall, organic growing is difficult. Contact herbicides and treatments against mildew, which is endemic in the area, are common practices, yet they avoid spraying the vines within 25-30 days of picking. Green harvesting helps to expose bunches to the sun. They use selected yeasts, which are as neutral as possible, and all the winemaking processes are handled in a cool, inert atmosphere thanks to the use of dry ice.

Barbara Palacio

D.O.Ca. Rioja

Barbara Palacios López-Montenegro is the granddaughter of Don Jose Palacios Remondo and, as is tradition in this family, was formed in Bordeaux, although their concern and interest in viticulture and enology, have led to this persevering woman to travel around the world: Barbara has worked not only in some of the most representative wineries of Médoc (Château Margaux, Chateau Pichon Longueville Baron), but also in Tuscany (Italy), Napa Valley (USA), Marlborough (New Zealand), McClaren Valley (South Australia), Curicó (Chile) and more recently in Mendoza (Argentina).

With this precious wealth of experience and a great experience, Barbara finally returns to La Rioja to meet its objective: create your own cellar, to which has a vineyard in Bilibio Crag, an area of Haro, his father Antonio had planted with tempranillo and, interestingly, merlot, because the soil, clay, limestone, and altitude (490-550 m), reminded him of the French soil. Barbara Palacios made from this vineyard its unique Barbarot a very personal and innovative wine whose name is a symbiosis of 'Barbara' and 'Merlot' (his pet dog and the winery).

As the son and grandson of wine growers from **San Vicente de la Sonsierra**, Pedro Balda, 38, used to hate everything that had to do with vines. From an early age, his father took him to farm the family plots. "In summer when my friends were swimming at the pool, I would be bud pruning or removing stones", he recalls. "I wanted to be an architect but I wasn't that good at drawing so I finally took Agronomy. I loved attending Viticulture lessons because it had nothing to do with what I had experienced and I thought, I really want to work at this."

In 2008, he started teaching and working on his PhD with leading grape expert **Fernando Martínez de Toda** at La Rioja University. At the same time he decided to make wine from **Larrad**, a 0.5Ha vineyard planted by his grandfather. He was supported by celebrated winegrower [Abel Mendoza](#), who lives next door to his parents. He currently produces two reds from two different harvests at the Larrad plot. The first one, called **Vendimia Seleccionada** (Selected Harvest), from which just one barrel is usually made, comes from less compacted bunches that are manually destemmed ("grain by grain" as it is also customary in a couple of **Abel Mendoza's** reds). "There's no other way to achieve such fine tannins", says Pedro.

The second wine is called Cosecha and it is made with the remaining grapes that are thoroughly destemmed. Quantities are tiny and most bottles are exported. Anyone wishing to drink Pedro Balda's wines in Spain should try [Celler de Can Roca](#) (Girona) or **La Cigaleña** (Santander), two restaurants stocking a great selection of natural and organic wines.

As far as wine growing practices are concerned, Balda skips classifications. He says he's neither biodynamic nor organic, although the first thing he did when he took charge of the Viticulture department within the Winegrowing and Oenology Master Studies was to introduce biodynamics in the curriculum. Working without sulphur "has many risks and you must deal with the consequences", he admits. (Kilde :Spanish Wine Lovers)

Paco Garcia

Paco Garcia was started by married couple Francisco Garcia and Julia Pablo, who shared the same passion and love for good wines. This passion and hard work resulted in the acquisition of 40 hectares for the Paco Garcia vines and winery. They started this project in 2000, selling grapes to antique wineries in La Rioja.

In that same year a significant grape crisis affected a lot of wineries, and in the middle of the crisis Julia and Francisco decided to double bet their project and started constructing their own winery. They both knew it was a difficult challenge but they thought it was worth a try. In March 2001 they started this new project and began construction of the foundations, and in September of that same year they made their first harvest.

Paco Garcia's hand is a tribute to the father and older son, to their belief and strength, to their joy and enthusiasm, to their passion and love for their wines and every aspect of their vines; it represents their daily hard work in the fields for the elaboration a fine wine.

Bodegas Mateo

The year is 1886, and a young couple decides to plant a small vineyard in the foothills of Mount Yerga. Little did they know the importance this decision would have for the following generations.

138 years later, that simple vineyard has grown to 100 hectares helping Bodegas d. Mateos design emotions through its wines and leave its unique mark. A winery with so much history that every night its walls whisper the stories of grandmothers telling bedtime stories to their grandchildren: a refuge from the disturbing afternoons among relations, with the spirit of grandmother Guillermina, making sure her legacy is not lost.

Finca Valpiedra

Finca Valpiedra ligger som en halvøy ved elven Elbo i Rioja Alta. Alle viner kommer fra denne vinmarken, som er belagt av småstein.

D.O.Ca. Rioja

Finca Valpiedra opened in 1999, it is the only Rioja winery that belongs the Association Grandes Pagos de España (Grand Crus Association of Spain), an exclusive and small group of wineries from all over the national territory of Spain with single vineyards and of their own personality defends the authentic terroirs of the country.

Finca Valpiedra follows the classic Bordeaux style, with a single vineyard and two only wines elaborated exclusively with grapes from the estate. Finca Valpiedra, our main reference, and Cantos de Valpiedra, both identified with the stony soil typical of the estate that conditions, together with its own microclimate combine to profile these wines.

Durand vindåpner

Aroa Bodegas is a pioneer in the D.O. Navarra with the organic spirit and organic-biodynamic methods of cultivating. The area, where the winery is situated is one of the highest areas in Navarra with a strong influence of Cantabrian sea.

Vineyards, located proximity to the Pyrenees Mountains and the Cantabrian Sea, give a strong Atlantic character to the Mediterranean climate. It's one of the most northern areas of the Iberian Peninsula where red grape varieties are grown in the shelter of the Urbasa and Andía Mountains.

From the time they were planted, the vines have been tended without any chemical additives, just with a traditional treatments, such as copper and sulphur, in a very low concentrations. The area has an advantage: the dominance of the north wind along with the north-south orientation of the vineyards provide great ventilation. To further this advantage, we are doing leaf stripping and green pruning. In addition, infusions of different plants such as horsetail, nettle and sage are planted in the vineyards, which strengthen the vines against possible diseases. The twenty-five hectares are divided into seven vineyards located around the winery with the red varieties, such as Garnacha, Tempranillo, Cabernet Sauvignon and Merlot and white varieties such as White Garnacha and Moscatel.

Aseginolaza & Leunda are Jon and Pedro, two school friends of the 1979 vintage from the Basque Country currently living in Navarra. We are environmental biologist but have become crazy about one thing: old vine Grenache! Once we have found ancient – and often forsaken– unirrigated, bush-vines, we set about rehabilitating the vineyard without recourse to either herbicides or to systemic pesticides. Our philosophy is equally simple: maximum respect for the environment combined with minimal intervention in the winery.

We love old vines, trained in the traditional bush-like shape. From pruning to harvest, all the tasks are made by hand. We are committed to minimize our environmental impact and respect for the soil, the flora and the fauna. Therefore, our vineyards are not irrigated and we fertilize only with organic compost. We reject the use of herbicides or systemic pesticides. This is our contribution to the social heritage that old vineyards represent.

The grapes are harvested by hand and transported in 15-20 kilo boxes. Fermentation occurs spontaneously with indigenous yeasts and the cap is manually plunged every day. For fermentation we use stainless steel vessels but all our wines are aged in old French oak barrels. The aging length is decided by tasting –no rules!–, a result of the conversation between the wine and the barrel. Our wines are bottled without stabilization or filtration, so the wine is clarified by natural decantation. The only ingredients of in wines are fermented grape juice and a minimum dosage of sulphur. Annet

Alkoholfrie viner

Zero Zero produseres ved å produsere ordinær vin først. Sukkeret omdannes til alkohol på vanlig måte. Så snart vinen er ferdig produsert går den gjennom en dealkoliserings prosess. På denne måten oppnår man en alkoholfri vin med lavt sukkerinnhold.

Cara Nord is a project that was created in 2012 by **Tomàs Cusiné**, **Xavier Cepero** and **Eric Solomon**, 3 friends that have known each other for more than 20 years and who have great experience in the wine industry.

Cara Nord is a young winery that believes that the place of origin, the vine, the climate, the land and the people who work there, are decisive to achieve a unique personality for each wine. To do so, they cultivate vines surrounded by high mountains and forests that belong to the natural parks Muntanyes de Prades and Bosc de Poblet. These vineyards are isolated at around 800 metres of altitude. They are planted on poor slate and clayey-calcareous soils with rocky outcrops, cliffs and mountains.

The climate is continental-Mediterranean, with extremely cold winters and very short summers. The cold temperatures delay the accumulation of sugars, preserving the acidity and yielding very expressive and fruity grape bunches.

Terra Remota

D.O Empordia

The characteristics of the land on which Terra Remota lies, combined with the professional experience of its owners, have determined the character of the wines produced, with priority given to smoothness and elegance, while excess body and tannins are avoided.

The names of the main range of Terra Remota wines are based on the concept “Camino” (way, path, journey), in a clear allusion to the well-known poem by Antonio Machado. As in the poem, at Terra Remota there is a commitment to a work ethic, where respect, tenacity and perseverance prevail, as essential values for achieving the objectives proposed.

Terra Remota is a single estate covering 54 hectares, embedded in the spurs of the Albera Massif. This is a territory with a granitic soil, known as albero, which offers very interesting possibilities for viticulture, as the soil is not fertile and furthermore it facilitates good drainage. Granite is a light-colored and therefore quite cold stone which guarantees balanced pH and acidity.

In 2003 and 2004, a total of 23 hectares were planted, following major work on the land’s subsoil, while respecting forested areas that foster the local flora (olive, oak and pine trees, lavender, thyme, etc.) and fauna, in order to maintain the environmental balance. The vineyard comprises 15 parcels, planted with low-yield clones for each variety. The philosophy has been to maintain part of the production using the typical varieties of the area. The summers are usually dry; this is a characteristic of the area (rainfall of some 600 mm/year). For this reason, the estate is equipped with a reservoir for rainwater, which is collected from the winery’s rooftops. Despite the lack of rainfall, there is sufficient water available for occasional watering, above all during the most important phases of the vegetation process. All viticultural and vinification processes are carried out within the context of the winery’s organic label, which was obtained in September 2012. Harvesting is carried out manually, with grapes collected in boxes of 10 kg. Parcels and varieties are selected, and frequently grapes of the same variety and from the same parcel are differentiated, so that they can undergo vinification separately.

The landscape of the region of **Empordà**, located in the northeast of Catalonia, is full of contrasts, due to the natural limits of the Pyrenees in the north and the Mediterranean Sea and magnificent Costa Brava in the east. Thanks to these, the **Empordà** is a unique place, a special territory between the sea and the mountains, marked by the presence of the north wind known as Tramontana.

Augusti Torello – AT Roca

D.O. Penedes/Montsant

Augusti Torello var frontfiguren av Augusti Torello Mata i over 20 år. I 2010 bestemte han seg for å realisere sin drøm med å starte opp på nytt sammen med sine to sønner.

Produksjon foregår i Penedes og Montsant. På grunn av sin forkjærlighet til Penedes, har han valgt å bruke opprinnelse Penedes på sine cava istedenfor DO Cava. (Begge deler er ikke lov).

Fokus er å lage god vin ved gjennom økologisk landbruk med druer fra vinstokker fra de beste jordsmonnet flere steder i Penedes.

D.O. Cava

Musserende vin lages over hele Spania. Dersom gitte kriteria oppfylles vil den bli klassifisert som en D.O. Cava. De fleste musserende kommer fra området Penedes ved Barcelona, og laget på den tradisjonelle drueblanding som Francesc og AT Roca (s.25) . Clos Pons har i tillegg litt Chardonnay i sin cava. Dette er ikke helt uvanlig.

AT Roca har valgt å klassifisere sin musserende som D.O. Penedes og ikke D.O. Cava. Dette fordi produsenten mener det er feil at en cava med D.O. Cava klassifisering kan produseres over hele Spania med druer som ikke er en del av den opprinnelige cava.

En Cava er laget på samme måte som champagne (méthode traditionnelle), som vil si at annengangs gjæring er på flaske.

Det finnes også spansk musserende som lages ved at vin tilsettes CO₂ . Disse kalles Vino Espumoso og er som regel relativt rimelige i pris.

Familia Nin Ortiz

Økologisk og
biodynamisk produsert

Bli fascinert av vinene til vinmakerstjernen Ester Nin **apéritif**

D.O.Q. Priorat

They met in 2007 at a biodynamic seminar in Granja Laya in the province of Tarragona (Catalonia). **Carles Ortiz** was a winegrower who had been selling organic grapes in Priorat for 10 years and wanted to add extra value to his crop. By then, **Ester Nin**, winemaker at Daphne Glorian's Clos i Terrasses in Gratallops, followed biodynamic principles and was making her own wine, the red **Nit de Nin**, since 2003. This first encounter eventually led them to bring together their vineyards, efforts and lives. Now they are family and a small company called **Familia Nin Ortiz, S.L.** that manages **13 hectares of vines**, 12 in Priorat plus another one in a high-altitude part of El Pla de Manlleu, Ester's hometown in Penedès. The ground floor of their home is packed with wooden vats, amphorae and barrels. There isn't a great deal of separation between work and private life. Ester and Carles think of **wine as an organic soil-yeasts-fermentation cycle**. "Only a living soil creates the conditions to obtain yeasts capable of developing fully spontaneous fermentations", they say. They plough their vines with their four mules and pick grapes in late August, which is rather early for the area. Harvest dates are set based on pH levels –their 'top commandment'– and they never tweak with their wines. "Rectified wines are soulless wines," says Carles.

Mas Doix - D.O.Q. Priorat

Mas Doix er en liten familiedrevet vinprodusent i Paboleda som har hovedfokus på produksjon av kvalitetsvin. Total produksjon er ca 55.000 flasker årlig.

Vinmarkene ligger 350-600 m.o.h., mellom to mektige fjellkjeder. Dette gir meget gode klimatiske forhold for produksjon av vin gjennom noe kaldere klima som gir en langsommere modning av druene.

Conreria d`Scala Dei

It's uncontroversial to say that monks and wine go together like peas and pods, so when the Carthusian order arrived in the Priorat in the late 12th century, one of the first things that they did was plant vines. Their priory, the Cartoixa d'Scala Dei, literally the steps to God, might have referred to the rugged landscape or the terraces required to farm this remote land. These priors would lend their name to this entire region, the Priorat, and were instrumental in creating many of the now-famous villages in the DOQ – the oldest of which, Escaladei, bears the original name of the medieval priory. While now in ruins, any visit to the Priorat inevitably includes a stop at the Cartoixa d'Scala Dei, picturesquely situated at the foot of the Montsant.

Adjacent to the derelict priory sits Conreria d'Scala Dei, with the very talented Jordi Vidal at the helm. The estate was founded in 1997 by Jordi and two friends. Their top site, Les Brugueres, and its centenary vines of Garnatxa Blanca produces one of the most delicious, single-varietal white wines in the DOQ. Jordi also makes an elegant version of Black Slate from vines in Escaladei and our only Black Slate white from vines he tends in the village of La Morera.

Jordi organically farms several sites that vary in location, elevation, and soil. While most are located near the winery, there are a few vineyards in La Vilella Alta, Poboleda, and La Morera. Some sites are planted on steep slopes and terraces, while the remainder are on lower-elevation alluvial soils. The vine age at Conreria d'Scala Dei ranges from 10 to well over 100 years old. While most of the vines are rooted in llicorella soils, higher percentages of clay and limestone are mixed with schist closer to the Montsant range. The estate controls 26.5 hectares planted with Garnatxa Negra, Carinyena, Syrah, Cabernet Sauvignon, Merlot, Garnatxa Blanca, and Pedro Ximénez.

D.O.Q. Priorat

Klosteret i Scala Dei

Produsentens bratte vinmarker.

Cellar Cal Pla

Cellar Cal Pla er en liten familieeiet bodega i Porrera som har drevet med vinproduksjon siden 1814. Frem til 1996 solgte de vinen i bulk lokalt, men da sønnen Joan var ferdig med vinstudier lanserte de sitt eget merke. Joan er 8 generasjon i vinproduksjonen. Totalt produseres ca. 90.000 flasker i året. I tillegg til de røde viner produseres det to hvite- og en rosevin. Det er relativt uvanlig i Priorat at det produseres noe annet enn rødvin. Under 2 % av produksjonen er hvitvin i området.

Clos de L'Obac

D.O.Q. Priorat

At the end of the 1970s, the married couple Pastrana & Jarque (Clos de l'Obac), together with a friend of those times, René Barbier (Clos Mogador) –the son of a family of Tarragona wine merchants–, began to replant vines in El Priorat with the aim to produce some great wines there.

In 1993, the World Wine Guide, considered Clos de l'Obac as a one of the top 150 wines of the world.

4 kilos

4 Kilos, a colloquial way of saying 4,000,000 pesetas, was the initial investment Francesc Grimalt and Sergio Caballero made to start the winery.

A modest investment in the sector which shows that good wine is not much money but has passion and ambition for quality.

The grapes come from different farms in the south and north of Mallorca on Call Vermell, the name popularly given in Mallorca to the loamy soils.

The vines are aged between 20 and 45 years.

4 Kilos practices a very respectful rational agriculture with the environment and with minimal intervention. They use a native vegetation cover, with a large microbiological population to obtain a higher concentration in the grapes.

They have a mild Mediterranean climate, with hot, dry summers and little rainfall. www.4kilos.com

Bodegas Enrique Mendoza is the main reason why the Alicante DO has become so well known. A winery that produces wines with a distinctive Mediterranean character. Towards the end of the 1970s, Enrique Mendoza undertook the project of crafting wine, at first only for family consumption, in Marina Baixa, a region in southern Spain. Later, Mr. Mendoza's passion for wine lead him to found Bodegas Enrique Mendoza in 1989. Today the winery is under the control of his children, José and Julián. The Bodegas Enrique Mendoza winery is situated in Alfàs del Pi, in the province of Alicante. Its vineyards grow in plots located at an altitude between 365 and 640 metres above sea level, near the town of Villena. Committed to environmentally friendly practices, the winery strictly follows the principles of organic farming and avoids the use of chemical herbicides and pesticides. Hydric stress is routinely monitored to ensure that the grapevines receive the correct amount of water, thus reaching a proper size and an optimal concentration of sugars.

Bodega Mustiguillo / Risky Grapes

D.O.P. Terrerazo/D.O. Valencia

Bodega Mustiguillo ble i 2012 kåret av Wine & Spirits til en av 100 topp vinprodusenter i verden. Dette kom som et resultat av et målrettet arbeide siden 1999 med å lage høy kvalitetsvin av den lokale druen Bobal. Eieren, Toni Sarrión, reiste jevnlig til den nye verden for å få inspirasjon og innspill for å kunne utvikle kvalitetsvin av relativt unge vinstokker som gjenspeilet området hvor vinen kommer fra. Bodega Mustiguillo ligger i et området preget av kalkstein og sand, og er kun ca 100 km fra den kaldeste byen i Spania. Det er stor temperaturskjell mellom dag og natt temperatur. Druene dyrkes i D.O.P. Terrerazo, som er vinmark som ligger samlet rundt bodegaen. Toni har startet et nytt prosjekt, Risky Grapes, med Bobal druer fra vinmarker like ved. Vinen produseres hos Bodega Mustiguillo, men druene kommer fremt sett fra D.O. Valencia. Les mer om vinene på www.aperitif.no

UKENS VIN

Knallkjøp fra solkysten

Casa Boquera is a small family winery where our main goal is to promote quality before quantity. It is situated in the midst of our vineyards and ensures short distances from the vine to the production line. This is vital to create the best quality wines.

The soil is lime bearing with thick subsoil containing high amounts of carbonate. The topsoil is sandy and deep and keeps the vines moistened. A great area that results in wines with a distinct terroir character.

Our main grape is Monastrell, the preferred variety of the district, but we also have syrah, petit verdot and garnache tintorera. For whites we have chardonnay, sauvignon blanc and moscatel, but just a small amount. We produce mainly reds and a little white and rosè.

The winery was built spring 2016 and our winemaker has been deeply involved in the whole process. His philosophy is to always take care of the grape and the wine by making sure the conditions inside the building is optimal for the correct conservation. We need to avoid using preservatives that can reduce the quality.

The harvesting is done by hand and the grapes are placed into small boxes to ensure maximum quality and prevent any premature oxidation. We do a small selection already in the fields and then a second selection in the winery using a selection table. We manually separate the grapes from leaves and branches. We also remove grapes that do not have an optimal ripening stage or are rotten in any way. And the best feature: it takes only a few hours from the grape is cut from the vine until it enters the stainless-steel tanks.

The entire fermentation process is done in stainless steel tanks and takes about 10 days. At the end the grapes are pressed through a pneumatic press, respecting the structure of the grapes and therefore only pressing them, not crushing. The quality of the juice will determine if its destiny is to be a young wine or to be matured in oak barrels, either French or American.

All our wines are ecological and preserves the personality of the area. (Fra www.casabocuera.com)

Casa Boquera eies av Katherine og Harald Schalde. I tillegg til vinproduksjon er det hotell og restaurant på vingården.

Bodega Luzon

The roots of Bodegas Luzón date back to the consecutive union of grape growers and wine producers in 1916. Throughout the last century the Bodega has seen much expansion and modernization and by the year 2000, it had reached its current size.

The wines of Bodegas Luzón are the result of the variety, soil, climate, vinification and aging well harmonized in order to obtain the personal character of our land. Finesse and power well conjugated in the desired ratio by type of wine for the enjoyment of our consumers.

Luzón has adapted to the latest advances in the technological control process. The winery has the most modern systems that guarantee quality, ensure the complete traceability of wines, from the vineyard, fermentation, processing, breeding and subsequent bottling.

D.O. Jumilla

DO Jumilla ligger i regionen Murcia som grenser til Valencia.

Bodega Calvente

Bodegas H. Calvente is a small, artisanal winery. Craftsmanship and low production allow us to strive for true excellence in the end product: singular wines with a distinct personality. That is what makes our wine so exclusive. The secret lies in the terroir of the old vineyards that grow on a few hectares of land in La Guindalera and Castillejos, and the influence of unique microclimate. The altitude of the area and the sea breeze moderate the temperatures while the grapes are ripening. The slow and balanced maturation achieves a perfect balance in the characteristics of our vines. The land and climate of this area is rare, so our grapes are completely different from the same varieties grown in other areas. Our centuries-old vineyards are not irrigated. They produce less than 4000 kg of grapes per hectare, allowing us to obtain exceptionally high-quality grapes. In Bodegas H. Calvente we select our grapes manually and patiently. We allow them to ferment naturally, focusing on originality and personality. With the grapes that nature offer us, we create unique, unrepeatable wines, unlike any other wine on the market.

Calvente er laget a Muscat of Alexandria fra vinmark i La Guindalera. Opptil 120 år gamle vinstokker 700-1.000 moh.

La Melonera

Liten vinmark som er omkranset av trær for å beskytte vinrankene mot sol deler av dagen.

Bodega La Melonera identified Serranía de Ronda as the perfect place to harvest different varieties such as the native grapes Blasco and Corchero Tinta and the white varieties Quiebratinajas, Morisco, Platera and more, which were on the verge of extinction. Ranging between 690m and 930m altitude, the estate expands over 196 hectares though just 9.5 hectares are dedicated to vineyards and 4 to sustainable production. Divided into approximately 29 plots between 0.5 and 2 hectares each, all benefit from great temperature differences between daytime and night-time, a factor which allows the grapes to develop a high natural acidity.

Since 2005, the winery has specialised in studying the grapes to both grow and protect them. The authentic wines made here have a strong personality. The winery also runs guided tours of its production areas, vines and barrels.

Despite its centuries-old tradition, Ximénez Spínola is not a typical sherry bodega. It is still controlled by the descendants of the family who founded the winery in 1729 -something increasingly unusual in the area- and all its wines are made exclusively with Pedro Ximénez, in an area where Palomino is the dominant grape variety. José Antonio Zarzana represents the ninth generation of the house founded by Phelipe Antonio Zarzana Spínola. He is focused on quality and exclusivity - only limited and numbered editions from its annual solera selection are sold so it is arguably the winery with the smallest production in Marco de Jerez, an area covering the towns of Jerez, El Puerto de Santa María and Sanlúcar de Barrameda. The winery sources grapes from its own 20 hectares of Pedro Ximénez vineyards grown organically (albeit without official seal) and works with natural sugars coming from the fruit's own fructose after sunning the grapes. This raisining process reduces yields up to 30% of the total harvest .

Bodega Ximenez- Spinola

As well as wines, Ximénez-Spínola makes vinegar and a range of brandies. Like some of the best inventions in life, it surged during a crisis period. José Antonio explains that in 1948, in the midst of Franco’s autocracy and with an isolated crisis-ridden country, his grandfather found himself with three vintages worth of wine stored in his winery. As he could not sell the wine, he decided to take some old Pedro Ximénez chestnut butts for distillation thus producing one of the most well-known brandies in Jerez. Barely 3,000 bottles are produced nowadays - each one of them is sold before it reaches the market, numbered and signed by the hand of a Spínola, as dictated by tradition

D.O. Jerez

NYHET – Brandy laget av destillert Cosecha

When making our “Cosecha” wine, exposure to the sun slowly and gradually dehydrates each grape grain, evaporating water and concentrating natural fructose. Only 200 liters of must are obtained for each ton of fresh grapes, which ends up giving the wine a very low final yield. This wine acquires 13% natural alcohol when fermented in French Oak barrels. Then we slow down the process of alcoholic conversion by covering the barrel in an airtight way, which favours the preservation of aromas and fruit flavours, which we do not want to lose due to oxidation. Finally we distil this wine and let the result rest again in wood.

In this delicate elaboration, we limit the aging to 8 months in the French Oak barrel of the same wine that we have distilled. (Cosecha) on the “lees” of its wine fermentation and with a continuous battonage that brings ripe fruit flavours and aromas, this Brandy - after a gentle filtration - ,opens to a universe of scented sensations, full of flavours and aromas other than oak.

This elaboration starts from such a delicate raw material, that it is not worth waiting for the wood to hide its fruit emotions ... It maintains the alcoholic degree at 40%, so that, despite that fruitiness, it maintains its character as a pure and authentic Brandy.

Weingut Kranz

VDP. Die Prädikatsweingüter
PFALZ

Pfalz - Tyskland

Weingut Kranz er en familievinegar plassert i Ilbesheim, Pfalz i Tyskland. De varierende jordforholdene i Ilbesheim krever nøyaktig presisjon på åkeren for å oppnå best mulig utgangspunkt for vi av høy kvalitet. Dette er noe Boris og Kerstin Kranz, den fjerde generasjonen av Kranz-familien, kan godt. De prioriterer valg av lokalisering for vinranker høyt, slik at de kan utnytte eksisterende jord og mikroklimatiske forhold optimalt. Et av deres største eksempler på dette er Kalmit sør-skråningen, som tidligere ble ansett for bratt og upraktisk til å dyrke vindruer, men som ved hjelp av presist håndverk, flid og en smule idealisme har det vært mulig å lage en fantastisk vin her.

Weingut Raddeck

Nierstein - Rheinhessen - Tyskland

Raddeck er en familiedrevet vingård like utenfor Nierstein. Sønnen Stefan er nå mer og mer sentral i utviklingen av vingården, og legger planer for videre ekspansjon bl.a. til nye markeder. Raddeck har en rekke vinmarker i det kjente området Roter Hang, men har foreløpig valgt å ikke ta kostnaden med å bli medlem av VDP. Disse vinene kalles derfor **Premiumweine Edition "S"/Lagenwein** og ikke GG. Raddeck har fått en rekke priser for sine viner i Tyskland.

The family winery WIMMER-CZERNY is situated in the little wine village **Fels am Wagram**, several old documents about our family making wine and food in this house going back until early 17th century. Fels is situated in the eastern part of Austria on the south facing northern waterside of Danube river valley, in the little wine village **Fels am Wagram**, part of wine region **Wagram**, in Lower Austria, 70 km west of capital city Vienna.

3 Generations of Wimmer and 3 of Czerny comes together in our house name Wimmer-Czerny, which tells about 6 Generations on this farm. Today family **Czerny** is continuing this tradition on this house, making wine from 15 ha and also making organic food from 12 ha fields in the way of biodynamic agriculture (Demeter).

HVE (High Environmental Value) - sertifisering som gis av franske myndigheter til dem som driver bærekraftig. Det legges bl.a. stor vekt på bevaring av biologisk mangfold i vinmarken.

Pinot Meunier, Pinot Noir and Chardonnay and several ancient rootstocks (Arbanne, Petit Meslier and Pinot Gris) make up our 10-hectare vineyard. Our chalky-clay soil has been classified as suitable for growing champagne grapes. This vineyard is found on both sides of the Marne Valley, at **Baslieux sous Chatillon** and at **Vauciennes**, where remains of the **Château de Blanche De Castille**, which dates from the 12th Century, can be found. (Champagne grapes have to be harvested by hand so as not to damage the fruit and this generally takes place in September).

Working on the principle that we are merely the guardians of our heritage for future generations we must take care of the soil and the environment. Our family holding has gained the H.V.E. (**Haute Valeur Environnementale**) certificate as a result of our efforts to look after the natural habitat by such means as growing grass between the vines, helping to preserve the biodiversity, using pheromones to naturally deter insects and our choice of fertilizers.

Being independent wine producers we make our champagnes using our own grapes, preserving the age-old champagne traditions. Because we understand so well our types of grapes we either make our champagne in temperature controlled stainless-steel vats or, for some of our Chardonnays, in oak barrels. We mix our grape juices to offer you the best of our know-how through out our seven blends. A final careful addition of reserve wine completes and signs-off our workmanship. www.champagne-liebart-regnier.com

Domaine de la Graveirette

Frankrike - Rhône

Nestled between the towns of Orange, Avignon, and Carpentras in the Vaucluse is where you'll find our winery, with the Dentelles de Montmirail and Mont Ventoux to the east and the hills of Châteauneuf-du-Pape to the west.

After my studies at Beaune in Burgundy I returned to Bédarrides, village where I was born, at first joining the cooperative. In 2005, with the intent and desire to craft my own wines, ones of quality and character, I branched out on my own to found Domaine de la Graveirette. More than a decade later we remain committed to that early mission, and have since begun farming and vinifying biodynamically (certified by Demeter since 2015).

We now produce wines under the appellations Châteauneuf-du-Pape, Côtes du Rhône, and Vin de Pays de Vaucluse and Principauté d'Orange, with the same care given to each parcel of vines. The goal is that among our selection every person is able to find a wine that they love.

The mountainous Abruzzo region is situated halfway up the 'boot' of Italy. Here the co-operative wine company Cantina Orsogna was founded in 1972. The business today comprises 600 partner growers and covers almost 1,000 hectares of vines, of which 80% are organic. Set in the scenic Majella hills of Abruzzo, just 15 kilometres from the Adriatic, its vineyards benefit from the significant day-night temperature swings and superb ventilation in the vineyards . Various preparations are used to feed the soil and plants and taking into account the position of the planets in certain activities in the vineyard. Also, life in and around the vineyard gets extra attention. The winery allows wild herbs to grow among the vines that serve as green champions, whilst also attracting natural enemies of harmful insects. The estate believes in sustainable relationships, as well as sustainable farming methods and choose to use traditional rope tie, as well as cork to seal their bottles. In the cellar, wines are either fermented and matured solely in stainless steel tanks or, for the red wines, partly in stainless steel and partly in large oak 'botte'.

Sevilen Vineyards & Winery has 80 years of winemaking experience. The starting point dates to 1942 when Isa Güner, a first-generation immigrant from Bulgaria, founded the winery in Izmir. His passionate love for nature and wine changed the four hectares empty land he bought into a heavenly beautiful vineyard and a home for his family. Today his grandsons - the third generation of Güner Family - turned Isa Bey's precious heritage into a 160 hectares of beautiful vineyard and the his stable into a first-class white clothed restaurant, keeping his name at the door and his memories in every corner of the premises. Today, Sevilen produces grapes for its premium wines on two sites; in the warm Mediterranean climate around Izmir (at an elevation of 150m) and the cooler climate of the Anatolia Plateau (at an elevation of 900m). Being an own property, these vineyards are very much taken care with utmost attention for an exclusive harvest and high segmented wine production.

At Sevilen Vineyards & Winery the third generation of the Güner family, including Vice-Échanson Enis Güner, nurture their vines and use modern winemaking techniques to produce quality wines. With a full brand-new reception (double sorting table), the pre-fermentative process respects the integrity of the grapes, which are all hand-harvested. Working with gravity, juices and wines are moved as carefully as possible throughout the aging process. The winery has been working in partnership with the best French barrel manufacturers and a Turkish university to develop premium solutions for these unique wines.

Sevilen pays close attention to terroir in the production of its wines. The soils are distinctive, alternating between chalk and heavy clay with some limestone. Diversity of soil and climate allows the production of a variety of high quality and exclusive red and white wines. In this selection in Norway, you will have the chance to taste the indigenous grape varieties of Turkey.

Granmonte er en familiedrevet vinprodusent som holder til i en naturpark ca 3 timer nord-øst for Bangkok i Khao Yai. Dette er en av tre regioner hvor det produseres vin i Thailand. Eierne, Visooth Lohitnavy, hentet inspirasjon gjennom studieopphold i Tyskland, og i 2001 plantet han de første vinstokkene i Thailand. I dag har Granmonte ca 40 hektar. Nikki Lohitnavy, datter i huset, er Thailands første kvinnelige oenologist. Hun har jobbet mye internasjonalt, og er i dag kjent for å være en av de fremste vinmakere i Thailand. Vinmarkene ligger 350-500 moh, med et noe kaldere klima enn det de fleste forbinder med Thailand. Men det tropiske klima krever mye arbeide i vinmarken for å sikre sunne druer med bra konsentrasjon og friskhet. Innhøstingen skjer om natten i februar når druene har det ønskede sukkerinnholdet. I lys av klimaendringen har det vært stor interesse fra bl.a. Europeiske vinprodusenter å lære med om «Tropisk Vinproduksjon». Granmonte har hatt stor suksess, og har fått en god del priser for sine viner. Vinene finnes i dag på en god del hoteller og restauranter i Asia og Europa.
